INTRODUCTORY LETTER

Article 20, paragraph 1 of the Regulation (EU) No 995/2010 (EUTR) requires each Member State to submit a biennial report on the application of this Regulation during the previous two years. On the basis of those reports the Commission shall draw up a report to be submitted to the European Parliament and the Council every two years. This report will help the Commission in analysing the progress made in respect of the conclusion and operation of FLEGT VPAs pursuant to Regulation (EC) No 2173/2005 and their contribution to minimising the presence of illegally harvested timber and products derived from such timber on the internal market.

The biennial report will also help the EC in reviewing the functioning and effectiveness of the Regulation. It provides an opportunity for the Member States to share information regarding their overall implementation of the Regulation and can serve as a tool for self-assessment through which the Member States can identify achievements, significant developments or trends, gaps or problems and possible solutions. At the international level, the comparison and synthesis of information in biennial reports can support policy and decision-making.

The format is divided into seven parts:

- A. General Information
- B. National Legislation for Implementation of EUTR
- C. Implementation and Enforcement
- D. Cooperation on Implementation and Enforcement of EUTR
- E. Resources
- F. Technical Assistance and Capacity Development
- G. Communication Methods

Each biennial report should cover the period from March 2015 to February 2017 and shall be submitted in electronic form to the European Commission (ENV-TIMBER-REG@ec.europa.eu) no later than by 30 April 2017.

The report should be prepared in one of the 24 official working languages of the European Union.

Specific instructions

- Parties are encouraged to respond to all questions. Inputs can be made in spaces highlighted in grey.
- Unless otherwise indicated, responses should reflect measures taken during the reporting period.
- This reporting format is intended to be completed by making use of tick boxes and expandable space.
- The format is designed so that a reporting agency can take as much space as required to give a full answer. Use Appendix 2 with appropriate references in case additional space is needed.
- Please contact the European Commission (ENV-TIMBER-REG@ec.europa.eu) if any clarification in the preparation of the report is required.

C4 FLEGT VPAs contribution to implementation and enforcement of EUTR

How has conclusion and operation of FLEGT VPAs contributed to minimising the presence of illegally harvested timber and timber products derived from such timber on the internal market? (e.g. facilitating compliance by the operators/traders; reducing number of checks on operators and/or penalties applied; reducing the need for human and financial resources for implementation and enforcement of EUTR)	Considering that Indonesia is the first country which received a FLEGT VPA license, it is difficult to determine its impact on minimizing the presence of illegally harvested timber and timber products derived from such timber on the internal market.
